Update

TD Wealth COVID-19 update – We are here to support you

COVID-19 has created unprecedented times for us in Canada and for many around the world. Across the bank, we are all working hard to reduce the spread of the virus. Our first-priority is ensuring the health and safety of TD colleagues and our clients.

Please be aware, TD Wealth is still in operation, and we are available to speak with you, answer your questions and provide advice. We are trying to restrict or limit face to face meetings at the office, however, we are fully equipped to connect with you virtually using online meeting technology, via email and of course, over the telephone.

TD personal banking services also remain operational. [EasyWeb](#) online banking and TD mobile apps allow you to perform a wide variety of transactions from the comfort and convenience of your home. ATMs are operating normally and are available for you to make deposits or withdrawals at any time and TD contact centres also remain open. For any news and updates related to TD and how we're managing this pandemic, click [here](#).

As we navigate through this period of uncertainty, we will continue to take responsible actions to help reduce the impact of this public health crisis. As such, some of our retail branches will be temporarily closed during this time. Please know however, that we are available for you. I encourage you to reach out to me at any time if there is anything we can do to help support you and your family during these challenging times.

Thank you for your business.
