

Walking in my shoes

Welcome to summer and what a different summer this will bring! I hope everyone is doing well during these difficult and different days.

2020 has certainly started off with a bang! Covid19 is something none of us would have expected and I am sure summer plans have changed for many of you. My husband Bruce and I enjoy traveling. We were fortunate this year to get a trip into Africa in January which seems like a lifetime ago. We absolutely loved it and if this is one of your bucket list items, we highly recommend it. In fact, we love Africa so much this is our second trip and we fell in love with it even more. We will enjoy a summer of camping, boating, kayaking and enjoying our beautiful BC. We are so very fortunate to live, eat and play in our own backyard. My niece will be entering her third year of University. Time sure flies! Some of you have heard me mention that she is a skilled baseball player (pitcher is her position) and plays for the University of Regina women's softball team. She sure is missing her baseball this summer as everything has been cancelled. Instead she is hard at work with her summer job maintaining lawns and gardens for Melville properties.

Finally, I would like to mention that most of my business is built through referrals, I would welcome the opportunity to help your friends, colleagues and family who may benefit from the type of services I provide. I would also like to extend my thanks to all of those who recently provided me with referrals. Feel free to pass on my website information to those you feel may be interested.

Wishing you and your families all the best this summer and fall. Take care.
